## ANNIE WHILES CUCKOO

Just a short hop from Wallpaper\* HQ, Danielle Arnaud's gallery is well worth a visit for anyone with an interest in domestic architecture and interiors, as the space is also her home.

The current show: *Annie Whiles Cuckoo*, plays with the interior theme further with a series of large scale drawings that give a number of iconic 20th-century pieces of furniture a starring role.

We love the artworks themselves, but their presentation amongst the assemblage of Arnaud's well-loved furniture and personal effects is an added joy.
